

10 October 1975

MEMORANDUM FOR: Executive Officer,  
Office of Medical Services

SUBJECT : Brief Description of CLINSTAT for  
the FY 77 Budget

1. In accordance with your request for a brief description of CLINSTAT and the refinements projected to be accomplished relating to the \$60,000 requested in FY 77 budget, the following is submitted.

2. CLINSTAT is an OMS project programmed to provide OMS with computer-aided processing, evaluation, data analysis, and presentation of clinical data. At the present time, the above is accomplished principally with the laboratory testing done as part of the MPT/PHE Program.

3. It is planned the \$60,000 requested in the FY 76 budget shall be used to expand the CLINSTAT project to include other OMS activities which are not yet part of this system, but which are an integral part of the OMS professional evaluation process. Incorporation of these additional activities should provide further enhancement of the OMS professional evaluation system. Some examples of the additional modules that are projected for inclusion in the CLINSTAT program are the following:

- a. Inclusion of a stand-alone medical history program into the main CLINSTAT data base.
- b. Diagnostic Index
- c. Cross-tab evaluation of the clinical and administrative data bases

SUBJECT: Brief Description of CLINSTAT for  
the FY 77 Budget

- d. Physical examination findings
- e. An interim history
